

Dear Dr Gayle McLelland, Dr Helen Hall, Assoc. Prof. Virginia Plummer, Samantha Dix, Anne Tremayne, Dr Arunaz Kumar, Prof. Christine East, Beth Carr, Heather Buttigieg, Dr Shavi Fernando,

RE: Application for Learning & Teaching Research Grant titled: This project investigates midwifery and medical students' knowledge, self-efficacy and satisfaction following simulation of inter-professional management of primary postpartum haemorrhage.

It is with pleasure that I write to inform you that your application for funding under this scheme has been successful.

You have been allocated \$15,000

Due to the large number of applications, the committee was required to reduce the requested funding on successful grants. Therefore, we request that you confirm whether you will be able to complete your proposal with the allocated funding or if any changes will need to be made to your application (e.g. expected outcomes). If so, we request that you submit a Track Changed application indicating the required changes.

To receive your funding, please liaise with your School Finance Manager or R&R person, for a Cost Centre (Mxxxxx) and Fund Number and let them know that the fund number needs to be of the fund type: 250003 (This 'type' of fund is able to receive 'faculty initiatives research' funding.)

Then please email FMNHS-DDE@monash.edu with your Cost Centre and Fund Number for transfer to be arranged.

You will need to complete a final report and submit to email FMNHS-DDE@monash.edu by 1st July 2018. This report can be found on the Faculty Education Web Page. In addition you are required to submit a report on how the funds have been allocated to date as at 01 Dec 2017.

It is expected that all successful grant recipients would present the results of their project at a faculty forum in the year following the grant.

As a condition of funding there is an expectation that at any time this work is presented, either verbally or in writing, either internally or externally, this Faculty funding source is acknowledged.

Should you require further information relating to your application please contact The Office of Deputy Dean, Education via email FMNHS-DDE@monash.edu

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Wayne Hodgson', with a long horizontal stroke extending to the right.

Professor Wayne Hodgson
Deputy Dean (Education)
Faculty of Medicine, Nursing & Health Sciences
27 Rainforest Way, Clayton Campus, 3800
