Dr. John Betts
Department of Data Science & AI
Monash Data Futures Institute
Email: John.Betts@monash.edu

Biography

John is a Senior Lecturer in the Faculty of Information Technology at Monash University and Course Director of the Bachelor of Information Technology.
His main interests are in the areas of computational modelling, optimization and simulation. These problems are characterized by the need to understand the effect of variability on the behaviour of critical systems and allocate resources optimally.

Qualifications
