**Biography**

Dr Hills is a Registered Nurse with considerable experience as a clinician, manager and educator in mental health and clinical governance, both in rural and metropolitan community and hospital settings. His primary research interests are in health services and workforce development and performance, clinical governance, workplace aggression, mental health and well-being, and ageing. Dr Hills is currently developing new fields of interest in interdisciplinary and cross-cultural design and ageing, specifically in relation to healthy ageing and the ageing workforce.
